Dr. Loo,

Invitation for Students to Participate in Shell NXplorers Online Workshop

Greetings from Shell Malaysia!

We are pleased to inform you that Shell Malaysia will be organizing **Shell NXplorers virtual workshop** for university students from July to September 2021.

Shell NXplorers (<https://nxplorers.com/>) is a global innovative education programme that introduces young people to the complex and creative thinking needed to bring about positive change. The programme is designed to help young people to develop the complex problem-solving skills and capabilities that employers are looking for. It introduces a new way of thinking called, NXthinking and provides practical tools that they can use to tackle any complex problem within or beyond their workplace.

With presence in 17 countries around the world, the programme was first introduced to university students throughout Malaysia in 2018 through Shell's #ShellSelamatSampai Varsity Challenge and Shell Eco-marathon programmes.

Please find below details of the workshop:

Registration link: bit.ly/NXplorers2021

Participation is free with the seats limited on a first-come, first-served basis.

With this, we would like to request your assistance to promote and encourage your students to participate in the programme. They may choose to register on any of the above sessions and will receive e-certificates upon successful completion of the session. I have attached the programme poster and flyer for your reference and further dissemination.

We look forward to engaging with your students. Should you require more information or have any further questions, please contact us:
